

Barcelona Symposium
**“Frontiers
in Biology”**

7-9 March 2011 - PRBB Auditorium

The Symposium will bring together leading researchers working on biophysics, gene expression and splicing, epigenetics, cellular compartmentalisation and polarisation, tissue morphogenesis, organ development and function. It aims at promoting cross-fertilisation at the level of technology and conceptual frameworks.

Speakers

Richard Benton
Sabrina Desbordes
Claude Desplan
Barry Dickson
Marcos González-Gaitán
Chris Jopling
Alberto Kornblihtt

Tony Kouzarides
Thomas Lecuit
Hernán López-Schier
Matthieu Louis
Vivek Malhotra
Sophie Martin
Alfonso Martínez-Arias

Marco Milán
Isabel Palacios
Christine Petit
Olivier Pourquié
François Schweisguth
Daniel St Johnston
Juan Valcarcel

Organiser: Hernán López-Schier

Supported by:
