

## SYMPOSIUM

# “From fundamental research to medical unmet needs” – 2<sup>nd</sup> Edition

Wednesday 16 May 2012, Marie Curie meeting room

## PROGRAM

- 14:25 Welcome and Introduction by Michela Bertero
- 14:30 **Ana Ferrer, Lourdes Florensa (Hospital del Mar – IMIM)**  
Characterization of splenic B-cell lymphoma/leukemia, unclassifiable
- 14:50 **Luciano Di Croce (CRG)**  
Epigenetic gene regulation in stem cell and disease
- 15:10 **Ramon Pujol, Agustí Toll, Fernando Gallardo (Hospital del Mar – IMIM)**  
Department of Dermatology: Ongoing projects and perspectives in skin cancer research
- 15:30 **James Sharpe (CRG)**  
Imaging and computer modelling to understand how multicellular structures organize themselves
- 15:50 **Miguel Pera (Hospital del Mar – IMIM)**  
Surgery, inflammatory response and angiogenesis in patients with colon cancer
- 16:10 *Networking & coffee break*
- 17:00 **Gian Gaetano Tartaglia (CRG)**  
Amyloidogenic Proteins and RNA interactions
- 17:20 **Josep Lloreta Trull (Hospital del Mar – IMIM)**  
GRECU: Urological Cancer (Prostate and Bladder) Research Group
- 17:40 **Stephan Ossowski (CRG)**  
Clinical application and computational analyses of Exome-seq based disease studies
- 18:00 **Manuel Pera (Hospital del Mar – IMIM)**  
Gastroesophageal cancer: Insights on the pathogenesis and prognostic biomarkers
