True Image Deconvolution, Restoration and Analysis Workshop

Apply by March 10, 2025

If you are interested in producing high-quality microscopy images and obtaining reliable analysis results, this workshop may be of interest to you. Topics covered will include diffraction, acquisition pitfalls, spherical aberration, photon noise, Point Spread Function, Nyquist-Shannon Sampling Rate, Image Quality Control, crosstalk, (colocalization) analysis, and deconvolution. In addition, the Huygens Software will be demo-ed.

Instructor: Vincent Schoonderwoert, Scientific Volume Imaging
